

# Application Case Story

industrial  
equipment

## APPLICATION:

Commercial Refrigeration Unit  
Compressor

## MATERIAL:

Rulon® 1410 Gold; Rulon® 1045

## PART DEFINITION:

Flip Rings

## TECHNICAL DATA:

TYPICAL DIMENSIONS:  
1.5" Diameter Cylinder Bore

SPEED: 600 feet/minute

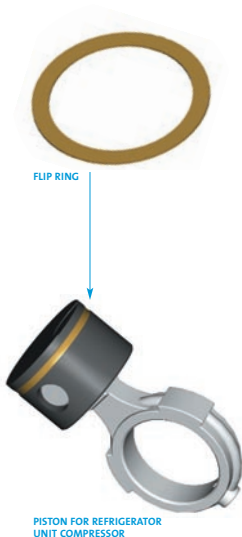

COUNTERFACE: Ductile Iron

LUBRICATION: POE Oil

WORKING TEMPERATURE:  
300°F

## FEATURES / BENEFITS:

- Materials exhibit low friction
- Materials minimize cylinder wear
- This design is economical
